Digital personal scale HN-286

This new digital personal scale with an extra safe and flat design is the next step in completing our BCM portfolio. It comes with an automatic on/off technology and a maximum capacity of 180 kg (400 lbs, 28 stones). Even slight weight changes can be detected with its 100 g division.

The digits are easy to read due to its 77 x 38 mm LCD. Stability and safety are ensured through a large platform made by safety glass (300 x 18 x 300 mm) Base feet are non-slip and made with non-scratch material to protect floors. The Battery is included (1 x CR 2032).

Product Features:

Digital personal scale HN-286-E:

- Flat design
- 180 kg maximum capacity, division 100g
- Automatic on/off technology
- Large display 73 x 38 mm
- Safety glass
- Battery included (Lithium CR 2032)

Product USP:

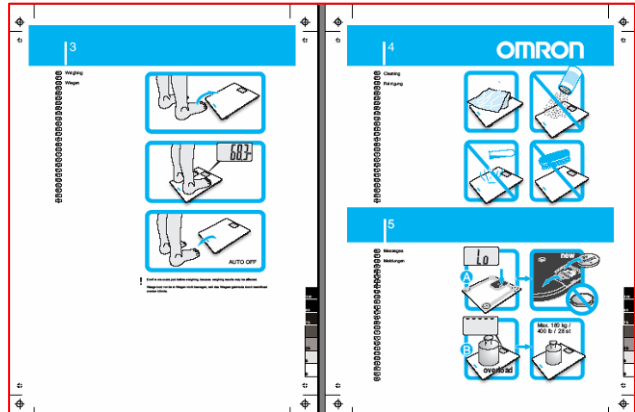

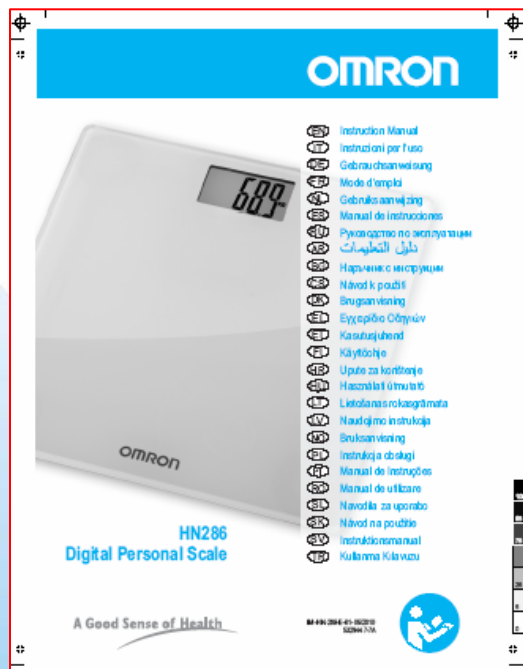

| # | features | Advantage | benefit |
|---|--|--|--|
| 1 | flat design | the newest technology of weighing cells make it possible to have a very flat product design (just 1.8 cm) | very safe to stay on this solid platform |
| 2 | 180 kg maximum capacity and 100 g division | extra high maximum load with high accuracy | maximum load of 180 kg and a division of 100 g each |
| 3 | automatic on/off technology | body weight appears immediately upon stepping on the scale, when you step off it will automatically switch off | easy to use and environmental friendly battery usage |
| 4 | large display | large numbers will display the weight results (73 x 38 mm) | easy to read the results |
| 6 | Safety glass | no sharp edges if the glass will be broken | low risk of injury |
